SUMMARY

Frontend Developer with hands-on experience in building scalable, responsive web apps using React.js, Next.js, and Tailwind CSS. Promoted within four months at Cognizant for technical growth and initiative. Skilled in integrating Supabase for backend features and using AI tools like GitHub Copilot and Cursor AI to boost development speed by 40%. Passionate about clean UI, efficient code, and delivering user-focused solutions. Seeking to grow into a Senior Frontend Engineer role with architectural and mentoring responsibilities.

PROFESSIONAL EXPERIENCE

Associate 09/2025 – Present

- Promoted from Programmer Analyst to Associate upon joining the React Development Team
- Spearheaded advanced feature development in React.js and Next.js for enterprise-scale applications
- Led integration of AI-assisted tools (GitHub Copilot, Cursor AI) to optimize workflows, achieving 40% faster deployments
- Mentored junior developers, fostering best practices in clean UI design and performance optimization
- Partnered with cross-functional teams to architect scalable, user-centric solutions aligned with business goals

Programmer Analyst 06/2024 – Present

- Promoted from Programmer Analyst Trainee to Programmer Analyst upon joining the React Development Team
- Designed and enhanced React.js components tailored to client requirements
- Built scalable web applications using Next.js with emphasis on responsiveness and maintainability
- Leveraged AI-assisted debugging and code generation to accelerate development cycles
- Collaborated with designers and backend engineers to deliver high-performance, user-focused applications

Programmer Analyst Trainee (PAT) 01/2023 – 05/2024

Managed and updated website content using Drupal CMS, ensuring accuracy, SEO optimization, and alignment with brand standards across multiple pages and components.

Project Experience
Pet Nutrition (E-commerce)

- **Content updates** across multiple content types and reusable components, ensuring accuracy, consistency, and alignment with brand guidelines.
- **CMS activities** including page creation, structured content entry, taxonomy management, and metadata optimization for improved discoverability.

ReadyRefresh Platform (E-commerce) Lead Frontend Contributor

- Developed responsive UI components for a high-traffic e-commerce platform using React.js.

• Resolved 50+ critical UI defects and ensured cross-browser compatibility for Chrome, Firefox, and Edge.

Internal UI Component Library Lead Developer

- Architected a scalable, reusable component library using React and styled-components, currently used by 10+ developers.
- Documented component usage and props, reducing onboarding time for new front-end hires by 40%.

EDUCATION

Bachelor of Engineering in Electronics and Communications 08/2018 – 08/2022
V.S.B Engineering College Karur

SKILLS

HTML(5), CSS(3), JavaScript(ES6+)
responsive and interactive UI

Next.js
SSG, SSR, CSR, ISR, Routing

Supabase
backend integration, authentication, real-time data

AI Tools
Cursor, GitHub Copilot for accelerated development

React.js
Hooks, State Management, Lifecycle Method, Context API, React Router, Redux, React Query ect..

Tailwind CSS
utility-first styling, rapid UI development

Git & GitHub
version control, team collaboration

CERTIFICATIONS

HTML, CSS, JS
Udemy

Next JS
Udemy

React JS
- Udemy
- Completed June 2023

PERSONAL PROJECTS

Cabin booking website
- Built a responsive cabin booking website using Next.js and Supabase
- Integrated real-time booking logic, user authentication, and dynamic cabin availability
- Deployed on Vercel; utilized Cursor AI for faster component generation and debugging
- Demonstrates proficiency in full-stack development and modern deployment workflows
